

Nadim Daud

Early Career Software Engineer

nadimdaud.online | nadimdaud3@gmail.com | www.linkedin.com/in/nadimdaud/ | github.com/NadimMussaDaud

INTRODUCTION

Early-career Software Engineer with 1+ years of experience in full-stack development and Data Structures and Algorithms. Experienced in building Backend services with Java and developing modern front-end using JavaScript, React, Express, HTML, and CSS. Additionally experienced in using Python to develop AI and machine learning applications in several contexts.

SKILLS

Languages and Technologies: Java, OCaml, SQL, Python, Git, JavaScript, HTML, CSS, Typescript

EXPERIENCE

Reltio Inc. - Software Engineer Intern

Aug. 2025 - present

Backend Engineer

Lisbon, Portugal

- Improving and Optimizing several **Microservices** guaranteeing correctness with Integration and Unit Testing and logging more relevant information for better monitoring
- Fixing critical SQL Injections and CRLF errors together with extensive Debugging for the platform correct behaviour within a large codebase
- Boosted information parsing up to 400% faster by using **Java Jackson** allowing faster information retrieval and insertion on Reltio's SDK
- Upgraded over 60% of AWS SDK in several microservices and Reltio's SDK providing an increase in safety and speed

Quidgest - Software Engineer Intern

Oct. 2024 - Dez. 2024

Developing and Improving the AI Chatbot

Lisbon, Portugal

- Enhancing AI response accuracy techniques, rebuilding the software aiming to reduce customer support response time and codebase size by almost 50%
- Designed and Built a new feature automating context information retrieval for LLMs and personalization for better accuracy

NoFee - Financial Services

Dez. 2024 - present

<https://nofee-xv67.onrender.com>

Lisbon, Portugal

- **Developed Full-Stack Web Application:** Utilized **TypeScript** for robust type-checking, enhancing code quality and maintainability.
- **Frontend:** Built a responsive and dynamic user interface with **React**, styled using **Tailwind CSS**
- **Backend:** Designed and implemented a RESTful API using **Express.js**, enabling smooth data exchange and server-side logic handling together with **MongoDB** for Database Management.

Finance Club - President/Founder

Oct. 2024 - Nov. 2024

Founded the first finance club at NOVA FCT

Lisbon, Portugal

- Led recruitment of 100+ students, designing a competitive selection process to identify top candidates across technical and analytical disciplines.
- Designed, planned and began execution of the first annual plan featuring educational lectures on market analysis and financial literacy, interacting with cross-functional teams to deliver programming content to 40+ members and establishing partnerships with 3 financial institutions.

EDUCATION

Nova of Lisbon University

Lisbon, Portugal

Bsc. Computer Science and Engineering

Jul 2025
